

## Future Cargo by Requardt & Rosenberg Visual Story

This is an outdoor performance at a festival.

This show is 50 minutes long.

It takes place on a shipping container. The shipping container is attached to a truck.

The truck has 'Future Cargo' written on it.

You watch while standing outside.

# THE PLACE

	<p>You wear headphones. You hear sounds, voices and music in the headphones.</p>
	<p>The show uses music, movement and dance.</p> <p>It doesn't have a story. It might make you think about things that are familiar or unusual.</p>
	<p>The show starts with a truck that has arrived from outer space</p>

# THE PLACE

I am the truck driver.

I sit in the passenger seat of the truck.

We are creatures inside the container.

You will see us get up to lots of different things.

# THE PLACE

We are dancing on a moving floor inside the shipping container.

We wear different costumes and wigs.

# THE PLACE

Some of what we do is unusual. We like to find new things to play with and learn new tricks.

The lights behind us change colour.

I get on the roof of the shipping container.

# THE PLACE

I am wearing an astronaut costume.

I leave the shipping container to stand on the roof with the driver.

We all dance inside the shipping container.

The shutter comes down. The show is finished.
